August 23, 2011

Dear Representative,

I am a survivor of an automobile accident. My accident happened in 2005. Over this period I have gone thru more than ten surgeries on my head alone! After the hospital stays I went through years of physical therapy, occupational therapy, and recreational therapy to get back to the point of where I am now. I still have a lot more rehab to do to get to my most independent point in my life. There are some people that need these services for the rest of their life. What would you do in these circumstances if you had to go through this situation and people were trying to cut you off financially and from a supportive aspect? PLEASE SAY NO TO HB 4936.

Sincerely,

A handwritten signature in black ink that reads "Jose Bocanegra". The script is cursive and fluid, with the first letters of each word being capitalized and prominent.

Jose Bocanegra
